PROFILE

I love learning about data science! Right now, I'm taking a Data Science course on Coursera and Simply Learn, and I have a certificate for it. I want to use what I'm learning in Python, SQL, and Excel to solve real problems in an internship. I studied at Tribhuvan University, so I know my stuff. I'm good with details and love working with data. With my certificate and excitement to learn more, I think I'd be great in any team. I'm ready to bring my knowledge to do cool projects in a job.

Data Analyst

EDUCATION

SLC
2008 - 2013
Completed my SLC at Shree Jitpur Secondary School in Ilam with a Percentage 60.88% in 2013.

Intermediate Education
2014 – 2016
Completed my +2 at Ambition College in Kathmandu with a Percentage 71.1% in 2016.

Bachelor
2019-2024
I am currently pursuing a Bachelor's Degree in CSIT at Shreeyantra College , with an expected graduation in July 2024.

SKILLS

- Python
- MySQL
- Excel
- Power point
- Tableau

COURSES

IBM Data science at Coursera
Data Science at SimpliLearn

TOOLS

- Programming Languages: Python, R
- Database Management: SQL (MySQL, SQLite)
- Data Analysis and Visualization: Pandas, Matplotlib, Seaborn
- Tools: Jupyter Notebook, Git
- Microsoft Excel

LANGUAGES

English ,Hindi and Nepali
